BOY/GIRL HARMONIES - SOPHISTICATED MUSICAL INTERPLAY - GROOVE-ORIENTED POP

Lighting up both intimate venues and outdoor stages throughout the bay area, SHINE brings its eclectic and impassioned interpretations to appreciative audiences, illuminating the heartbeat deep within a wide-ranging song list. With creative takes on artists from Damien Rice & Ray LaMontagne, to Joni Mitchell and even the Bee Gees, a SHINE show is a special moment in time when songs you know become new again, and songs you may not have heard crawl into your lap and make themselves right at home. And you may never be the same again. With two singers, John Merkl and Rose Chapman, and an amazing band made up of Michael LaMacchia on guitar, Rob Fordyce on Bass, and Mark Bernfield on Drums, it's a great night of soulful vocals, beautiful harmonies and amazing musicianship.

Taking their unique blend of musical interpretation and genre blending to the next step, SHINE's original compositions fit right into their eclectic set lists and the band's songwriting continues to add a new dimension to their shows. With multiple recordings planned in early '10, both a covers disc and a SHINE disc, the future is bright indeed. Working their way into the hearts and listening rooms of the Bay Area, SHINE can be heard regularly around Marin County at venues like The No Name Bar and Caffé DiVino in Sausalito, Servino's in Tiburon, The Sleeping Lady in Fairfax and many others. Looking ahead to the festival and street fair circuit in 2010 and a repeat performance at the Friday Nights on Main weekly Tiburon downtown street fair, SHINE will be continuing to enlighten audiences around the bay and beyond with shows planned in the North, East and South Bays. SHINE's first CD *The Covers* debuted on CD Baby's online store (cdbaby.com) last fall and sold out almost immediately to great reviews.
